# Ovzon receives prestigious innovation award

Ovzon received the prestigious Mobile Satellite Users Association (MSUA) Award – Company to Watch – recognizing the company overall and the innovation of the Ovzon T6 terminal.

Mobile satellite communications are revolutionizing the operations of maritime, aeronautical, enterprises, military and government organizations globally. The MSUA is a non-profit association dedicated to promoting satellite innovations worldwide. MSUA organizes the annual Mobile Satellite Innovation Awards celebrating the top market proven mobile innovations and solutions that are implemented and delivering value and mobile transformation globally.

Ovzon received the - Company to Watch - award with the following motivation by the jury: “This award recognizes Ovzon for its terminal, the Ovzon T6. Ovzon T6 is the smallest, lightest, and fastest terminal in its class with the ability to transmit up to 50 Mbps and receive 120 Mbps all in a compact laptop sized form factor.”

“We are honored to receive this award and proud that our efforts are recognized by our customers, partners and peers in the global industry. This means a lot to our people and our company,” says Per Norén CEO of Ovzon. He continues “we promise to keep delivering value, we will keep on innovating, and we strive to be the Company to Watch for many years to come. I would like to extend a thank you to MSUA for their strong leadership in supporting innovation in SATCOM.”
