

Ovzon Go

Ovzon Go is our flexible service for fixed usage model

The service provides users with access to flexible, simple service bundles that have the highest bandwidth and the smallest terminals. The service is delivered with Ovzon's market-leading terminals for On-The-Pause and On-The-Move.

Target Markets

Government and Defense, Broadcast, Disaster Relief, Maritime, Emergency services.

Performance

Committed information rates from 2/2 to 10/10 Mbps depending on location.

Ease of use

Can be deployed under 90 seconds by any operator.

Service and Support

Ovzon's service and support team is available 24/7.

Global Reach

Our services are operated on satellites covering the US and LATAM, Asia, Europe, and Africa. Gateways with secure backbone connectivity are located in Europe and Africa. The services are monitored and controlled through our 24/7 NOC in Tampa.

Disclaimer

Service subject to availability.
