

# Ovzon Hero

Ovzon Hero is our advanced, customized high-performance service developed for the critical tasks of the most demanding customers

The service enables transmission data rates up to 70 Mbps and reception data rates up to 120 Mbps. These rates are reached using Ovzon's On-The-Pause and On-The-Move terminals and are based on Ovzon's global satellite network, including high-performance Steerable Spot Beam and/or Fixed Regional Beam.

#### Target Markets

Government & Defense, Emergency services

#### Performance

Highest data rates from 2 to 120 Mbps

#### Ease of use

Can be deployed under 90 seconds by any operator.

#### Service and Support

Ovzon's service and support team is available 24/7.

#### Global Reach

Our services are operated on satellites covering the US and LATAM, Asia, Europe, and Africa. Gateways with secure backbone connectivity are located in Europe and Africa. The services are monitored and controlled through our 24/7 NOC in Tampa.

#### Disclaimer

Service subject to availability.
