## Ovzon receives renewal from its Spanish partner Aicox for SATCOM-as-a-Service

**Ovzon has received an order for renewal of Ovzon's SATCOM-as-a-Service from its Spanish partner Aicox Solutions. The 6-months extension will mainly be delivered during the first half of 2024.**

The order is for Ovzon's SATCOM-as-a-Service Plus solution, a fully integrated solution that includes satellite bandwidth, Ovzon T6 mobile satellite terminals and Ovzon's dedicated customer service and support. The order is for a demanding end-customer within the Civil Defense sector that started using Ovzon's services in January 2023.

*"We are very pleased to have received this first renewal in Spain. This order is an important step in solidifying our position with current customers in Europe. We continue to work closely with our partners to meet our customer's high demands and demonstrate the unique value of Ovzon's SATCOM-as-a-Service, which will soon be further enhanced when our first own satellite Ovzon 3 enters into service by mid-year 2024",* says Per Norén, CEO of Ovzon.

### **About Ovzon**

Ovzon offers world-leading integrated mobile satellite communications services, SATCOM-as-a-Service, to customers globally. The services combine high throughput satellite networks, mobile satellite terminals, gateway services, and dedicated customer support. Ovzon's offerings meet the growing demand for mission critical connectivity for customers with high performance, mobility and resiliency requirements such as Defense, National security and Public safety. In January 2024, Ovzon's proprietary developed geostationary satellite Ovzon 3 was successfully launched from Cape Canaveral, FL. Founded in 2006, Ovzon has offices in Stockholm, Sweden as well as Herndon, VA and Tampa, FL in the USA. Ovzon is listed on Nasdaq Stockholm Small Cap.
